

# Pricing and Ordering Information

## Basic Kyma System for Macintosh or Windows ..... \$3470

A basic Kyma System includes a CD-ROM containing Windows and Macintosh versions of the Kyma X software with over 1000 presets and 350 prototypes, the *Kyma X Revealed!* book, a Kyma FireWire interface with 3 meter FireWire cable, a Capybara•320 sound computation engine with four processors and 96 megabytes of sample RAM, four channel 24-bit A/D and D/A converters (up to 100 khz sample rate), dual two channel 24-bit AES/EBU digital audio interface (up to 100 khz sample rate), word clock input, VITC and LTC time code inputs and outputs, and MIDI In/Out/ Thru. *Please specify host computer type (Macintosh or Windows) and Capybara•320 side panel type (desktop or rack-mount).*

## Four Channel I/O Upgrade ..... \$995

Add 4 channels of 24-bit 100 KHz A/D, D/A, and AES/EBU audio I/O to a basic Kyma System (for a total of 8 channels).

## Capybara•320 Expansion Card ..... \$595

Provides two additional processors and 48 megabytes of sample RAM. *(There is a 10% discount for orders of 4 or more cards.)*

## Additional AES to S/PDIF Cables ..... \$16

Use these cables to connect S/PDIF equipment to the Capybara•320. A set includes one XLR female to RCA female (for stereo S/PDIF output) and one XLR male to RCA female cable (for stereo S/PDIF input). Both cables are 18 cm long. *One set of these cables is included free with your Kyma System order.*

## CM Labs Motor Mix MIDI Controller ..... \$599

This is the ideal MIDI controller for Kyma X and the Capybara•320. Eight bank-switchable software-controlled motorized faders, 8 continuous rotary pots, 56 lighted switches, and LCD scribble strip labels that show current parameter names.

## Wacom Intuos3 4x5 USB Tablet ..... \$198

102 x 127 mm (4 x 5 in) tablet with 200 locations per mm (5080 lpi) resolution. Includes wireless, battery-free five-button ambidextrous mouse, grip pen with tilt sensing and 1024 levels of pressure sensitivity, plus bundled graphic editing software. Includes overlay template for Kyma with two octaves of half steps plus rectangular and polar coordinates. (Template available separately for \$10.)

## Capybara Flight Case ..... \$300

This ATA flight case lets you check your Capybara as luggage on an airplane. The flight case is made of 6 mm thick plywood covered with blue ABS plastic, aluminum edging, 5 cm thick high-density foam padding inside, locking recessed latches, and telescoping handle and wheels. See it at <http://www.symbolicsound.com/flightCase.jpg>.

## Capybara Carrying Case ..... \$75

This padded nylon case lets you carry your Capybara with you. It has an adjustable shoulder strap, and fits under the seat or in the overhead storage compartment of most airplanes. See it at <http://www.symbolicsound.com/carryCase.jpg>.

## Additional FireWire Interface ..... \$495

This 400 Mbps IEEE-1394A interface allows you to use Kyma on another desktop or laptop.

## Kyma X Revealed! book (when ordered separately) ..... \$35

Contains the secrets of the Kyma masters! An excellent way to acquaint yourself with the full range of possibilities available in Kyma. If you order the book before ordering a system, we'll deduct the cost of the book when you place your Kyma System order.

**To order**, click the order link at <http://www.symbolicsound.com>, call 1-800-972-1749 (USA) or +1-217-355-6273 (int'l), fax a completed Customer Order Form to +1-217-355-6562, or send email to [info-kyma@SymbolicSound.com](mailto:info-kyma@SymbolicSound.com). All amounts are in U.S. dollars. Shipping costs are computed automatically for online orders. For all other orders, we will notify you of the shipping costs when we confirm receipt of your order. We accept American Express, MasterCard, Visa and Discover credit cards, checks and money orders in U.S. funds drawn on a U.S. bank, or wire transfers.
